

MEDICAL STATEMENT

Participant Record (confidential information)

Please read carefully before signing

Your respiratory system and circulation systems must be in good health. All body airspaces must normal ad healthy. If you have asthma, heart disease or other chronic medial conditions or you are taking medications on a regular basis, you should consult your doctor and the instructor before participating in this program, and on a regular basis thereafter upon completion.

You will also learn from the instructor the important safety rules regarding breathing and equalizing while scuba diving. Improper

use of scuba equipment can result in serious injury. You must be thoroughly instructed in its use under direct injury.

You must be thoroughly instructed in its use under direct supervision of a qualified instructor to use it safely. If you have any additional questions regarding this medical statement or the medical questionnaire section, review them with your instructor before signing.

This is a statement in which you are informed of some potential risks involved in Scuba diving and of the conduct required of you during the scuba training program. Your signature on this statement is required for you to participate in the Scuba training program offered.

By _____ and

Instructor

_____ Located

Facility

in the city of _____

and state/province of _____

Read this statement prior to signing it. You must complete this medical statement, which includes the medical questionnaire section, to enrol in the scuba training program. If you are a minor, you must have this statement signed by a parent or guardian. Diving is an exciting and demanding activity. When performed correctly, applying correct techniques, its relatively safe. When established safety procedures are not followed, there are increased risks. To scuba dive safely, you must not be extremely overweighed or out of condition. Diving can be strenuous under certain conditions. A person with a coronary disease, a current

cold or congestion, epilepsy, a severe medical problem or who is under the influence of drugs or alcohol should not dive.

Please answer the following questions on your past or present medical history with a **YES** or a **NO**. If you are not sure, answer **YES**. If any of these items apply to you, we must request that your consult with a physician prior to participating in scuba diving. Your instructor will supply with a RSTC Medical statement and guidelines for recreational Scuba Divers Physician examination to take to your physician.

Name _____

Address _____

City _____ Postal code _____

Country _____ Phone _____

E-mail _____ Birth date _____

YES/NO

1 Could you be pregnant or are you attempting to become pregnant _____

2 Do you regularly take prescription of non-prescription medications (With the exception of birth control) _____

3 Are you over 45 years of age and can answer YES to one or more of the following: _____

- Currently smoke a pipe, cigars or and cigarettes
- Have a high cholesterol level
- Have a family history of hearth attack or stroke
- Are currently receiving medical care
- High blood pressure
- Diabetes mellitus, even if controlled by diet alone

Have you ever had or do you currently have&..

- 4 Asthma or wheezing with breathing, or wheezing with exercise? _____
- 5 Frequent or severe attacks of hay fever or allergy _____
